SAPC-11698 Copy __ of 8 17 December 1956

Burt:

Enclosed is a memorandum to me from Ralph re: re-work of System No. 1, with Block Diagram of this system.

I should appreciate your review of Ralph's recommendation and your subsequent comments. In the event the proposed re-work does not involve considerations of which we are not aware, you are hereby authorised to re-work a pair of amplifiers and to test a System No. 1 with this modification to determine whether or not the anticipated improved performance will result. Should you need a pair of smallfiers for this purpose you are authorized to draw for same - or I will request Harry to send you a pair from his stocks. If considerations exist of which we should be more before your attempting this re-work, please discuss them with Relph or Jim.

25X1A

25X1Å

After test of this modification, and if the tests are successful, discussion will take place as to which Systems No. 1 are to be modified.

Thanks

George
